

# ARGYRANTHEMUM

## OVERVIEW

Brightly colored daisy like flowers and fern like foliage. Attracts pollinators, especially butterflies and bees. Low maintenance flowers that look lovely in garden borders, along walkways, and in cottage garden style plantings. Deadheading spent flowers encourages repeated blooming.

## WATER

Prefers light but regular irrigation. It does not tolerate soggy or saturated soil.

## LIGHT

Full Sun

## SOIL

Very tolerant of most soil types as long as it is well drained.
